Trey,

Repairs & Landscaping Committee Report:

Guard Shack - Repaired rotten entry steps. Awaiting final 3rd contractor to inspect rotten window frames. Expecting to select contractor to reframe the three rotten window frames and replace the 2 sliding windows with new vinyl windows. After windows are fixed, this committee (Blake, Kevin, Mark E.) will scrape/repaint the entire guard shack.

National Forest Parking Lot - Planning to fix the parking lot's perimeter wood fencing; either replace the broken pieces with new wood or do something that will not require any or as much maintenance.

Thanks,
Blake
